Non-advanced lung cancer
RLR
Age
Current daily smoker
Fever
Living alone
Breathing sound: whistling
Cold/flu/pneumonia past 2 yrs
Irritating cough
Gasping for air
Unlike other coughs
Eating: Changes hard to descr.
Sex
Persistent fatigue
Feeling chilly
Increased need for sleep
Tightness in throat
Asthma
Pain persists/worsens w. breat.
Weakness in the legs
Pleural fluid
Emphysema
RF
Age
Current daily smoker
Fever
Sex
Irritating cough
Hard to get air
Heart disease
Increased need for sleep
Feeling chilly
Breathing sound: whistling
Hoarse voice
COPD
Feeling worn out
Emphysema
Dryer mouth
Poorer/lower fitness
Lump/swelling/obstruct. sens.
Weight reduction past 2 yrs
Less will to do things
Living alone
XGB

COPD
Irritating cough
Dryer mouth
Cold/flu/pneumonia past 2 yrs
Less will to do things
Hoarse voice
Wheezing
Pleural fluid
Antibiotics past 2 yrs
Increased need for sleep
University education
Poorer/lower fitness
Predictor
-0.1 0.0 0.1 0.2
Variable importance (permutation-based, ΔAUC)
Advanced lung cancer
RLR
Age
Antibiotics past 2 yrs
Loss of appetite
Tightness in throat
Gasping for air
Weight increase past 2 yrs
Living alone
Back pain
Current daily smoker
Irritating cough
Weight reduction past 2 yrs
Lost sense of smell
Sex
Early satiety
Feeling chilly
COPD
Pneumonia
Pain comes and goes
Persistent pain
Less Smoking
RF
Age
Tightness in throat
Gasping for air
Back pain
Fatigue that comes and goes
Loss of appetite
Sex
No comorbidities
Antibiotics past 2 yrs
Weight reduction past 2 yrs
Living alone
Weight increase past 2 yrs
Early satiety
Current daily smoker
Asthma
Pain btwn shoulder bl. and chest
Irritating cough
More irritable
Weakness in the legs
Persistent pain
